

May 9, 2017

Today Michael Eisenbrock, D.D.S. really improved my smile. Two of my front teeth were chipped. I had two previous cavities that had fallen out, as a result they were easy to chip.

Dr. Eisenbrock refilled them and smoothed them out to look natural again. It was painless on top of it all.

Everyone that works in his office makes you feel so comfortable and it's nice how they went over all the options that were available to me (veneers).

I still have a lot of dental work to be done and I feel safe and comfortable to have it completed by Michael Eisenbrock, D.D.S. and his staff.

Nice to have my smile back!!

Thanks,

Cindy Lally
